I. Introduction

This style guide is specifically applicable to the official web pages of Safety Boss Limited. For our context, official Safety Boss Limited web pages encompass those hosted on our company's web server and created by Safety Boss Limited itself, as well as our divisions, departments, or other administrative units. This guide excludes web pages originating from individuals, whether they are part of our staff or affiliated with our company.

II. Required Elements

All official (see Section I.) Safety Boss LTD websites must contain the following elements:

1. Safety Boss LTD Logo as shown below.

III. Color Values

Official Colors

Blue and White and Orange are the primary colors of the company which represent the brand image of the organization.

Colors Used on Safety Boss LTD Web

The colors below represent the hexadecimal and RGB values of the colors that appear on the Safety Boss LTD website.

	Red	Green	Blue	HEX
	0	123	225	#007BFF
	225	82	13	#ff520d

Join us on this safety journey and let us make your workplace a safer place for everyone.

SAFE & SOUND

Featured Products **(4)**

#	Item	Font	Size	Colour	Class (as referenced in style sheet)	Justification of Selection of Font and Color
1	Large Heading	Arial, Sans Serif	2.5rem bold	#000000	h1	**Font** The font-family was chosen due to being a web safe font with good style and consistency throughout the typography. **Color** Black is has the highest contrast on white to it would be easiest to read the text if it is black(#000000)
2	Navbar Text	Arial, Sans Serif	1.3 rem	#000000	# nav a	**Font** **Same as above** **Color** **The white color on the blue background provided enough contrast for good visibility while adding an extra light colored style to the navbar.**

3	Body	Arial, Sans Serif	1.1 rem	#000000	about-content	**Font** **Same as above** **Color** **Color was chosen to maintain high visibility on the white background.**
4	Small Heading	Arial, Sans Serif	2.5 rem	#000000	h2	**Font** **Same as above** **Color** **Color was chosen to maintain high visibility on the white background.**

Safety Boss LTD Brand

The blue and orange colors are very important in the website and must be used consistently throughout the page.

The text should also be consistent throughout the page to enhance brand identity.
